Getting primary care services under the Primary Care Plan

Find out how to get primary care services under the Primary Care Plan (PCP) and search the list of medical centres and clinics.

What services does PCP cover

PCP covers your eligible workers for primary care services such as:

- One statutory **medical examination** for work pass application or renewal.
- Unlimited consultations for acute conditions such as flu and fever, and chronic conditions such as hypertension and diabetes.
- One annual basic health screening for at-risk workers.
- Telemedicine and medication delivery.
- Scheduled transportation to and from dormitories and MOM medical centres. This would be prioritised for workers who are reporting sick at MOM medical centres, and excludes routine specialist appointments.
- Ambulance or special transport services to other medical facilities (e.g. emergency department), if necessary.

Read the **full list of services** .
